Blauwe Duif – Jonge Jenever – 30% – 70 cl JENEVER –

Domain

Braeckman

Malt wine (grain distillate) is the basis of all true genever. Braeckman is one of the last remaining distillers who produce their own malt wine in-house. Braeckman malt wine is made exclusively from rye and malted barley, two indigenous grains. Malt wine adds a complex and rounded grain flavour to the genever. Alongside the malt wine, a herb distillate is added which contains juniper berries and a mixture of other herbs, seeds, peels and spices. This distillate gives the genever a pleasant and refreshing touch.

Vinification

Blauwe Duif is still distilled according to our age-old recipe. The unique family recipe is a well-kept secret and is passed on from generation to generation. A small amount of malt wine, and a herbal distillate with plenty of juniper, adds a fresh and smooth character.

Taste

Pure and smooth genever with lots of freshness from juniper berries.

General information

Type: Aperero & Digestif
